

We are happy to provide you with Allergen Information to help with your menu decisions. Before placing your order, please inform a manager if a person in your party has a food allergy. We will do our best to accommodate your needs and make your visit the best possible.

Please be aware that our restaurants use ingredients that contain all the major FDA allergens (Gluten/Wheat, Nuts [peanuts

and/or tree nuts], Fish & Shellfish, Soy, Milk, and Eggs). Please be aware that normal kitchen operations involve shared cooking and prep areas, including commonly used fryer oil; the possibility exists for food items to come in contact with other food products. Due to these circumstances, we are unable to guarantee that any menu item can be completely free of allergens.

All fried foods at Primanti Bros. are fried in highly refined soybean oil. The Food and Drug Administration and the Food Allergen Labeling and Consumer Protection Act of 2004 exempt highly refined soybean oil from being labeled as an allergen. If you are allergic to soy, please consult your physician as to whether or not you should avoid highly refined soybean oil.
